COMPANY PROFILE

DINCO ENGINEERING & CONSTRUCTION CORPORATION

OVERVIEW

DINCO E&C is the TOP choice for international clients with Industrial Plants, High-rise Buildings, Hotels, Resorts, Traffic and infrastructure construction projects.

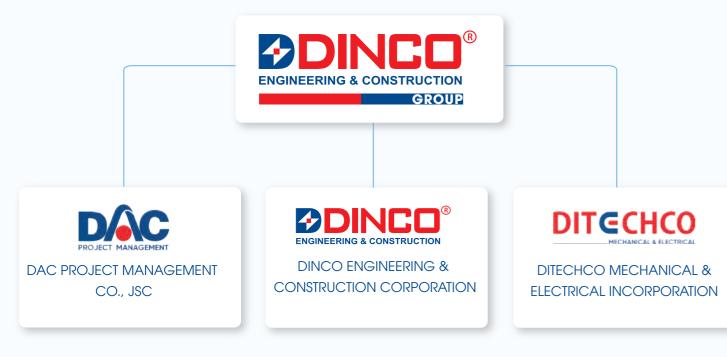

No matter how complex a project, how remote the location, how stringent the requirements, Dinco will meet and work to exceed the client's expectations. Our portfolio encompasses a panoply of construction and engineering feats. In addition, thanks to our unmatched combination of knowledge, skill, experience, and customer commitment, we can offer you, the client, cost saving project management services. Dinco E&C saves money and time by proposing innovative engineering solutions. We are able to offer competitive pricing by using our own concrete and stone resources.

Together with our clients, we work to create job opportunities; striving to improve the quality of life for local people wherever we have projects.

Privately owned, with the scope of activities stretching over the territory of Vietnam, we employ nearly 400 corporate staff and more than 3,000 workers.

MEMBER COMPANIES

To save maximum cost for Clients, Dinco E&C has established member companies.

曲

CONSTRUCTION OF HIGH-RISE BUILDINGS, HOTELS, RESORTS

OPEN LETTER

I started DINCO with a group of passionate engineers. We all had a dream to build a role model construction company in Vietnam.

Going through ups and downs, DINCO has changed constantly on many aspects (strategy, finance...) to keep up with the high competitiveness of the market. However, there are two values that DINCO and I have never ever changed: Human and Ethics.

From the outset, I wanted DINCO to set the reputation on its reliability. Reliability is the foundation for all of our business activities. I want to create trust for every client working with us. We do everything to prove to clients our honesty and integrity that give them the confidence on the quality of the job we have done.

Because Reliability is the cornerstone, DINCO has developed a strong standard of ethics. Every employee of DINCO understands that the number one rule in our company is being honest. They need to be honest with the clients about finance, materials, quality and protect the assets of the clients as our own assets. I believe this is the most important rule for all the long term and reliable relationships.

In order to create trust, we also focus on Human. DINCO makes a strong investment into Human Resource. We constantly train them to upgrade their knowledge, expertise and leadership so that they can exceed the expectation of our customers. We also want to create an environment that each employee can maximize their potential.

A successful company is run by successful people. I treasure all people who are passionately, uncompromisingly working with me and embracing our values. It is them that make DINCO a trustworthy company and become the best choice of investors in Vietnam. They are our most valuable assets.

Thank you for choosing us

President - CEO

WHY CHOOSE DINCO E&C?

INTERGRITY - HONESTY: We understand that the biggest concern our clients have in construction is unethical behavior which involves maintaining the quantity and quality of the materials specified. Dinco has built a high standard of honesty and integrity, dedicated to satisfying your design specifications. No unethical relationship with suppliers or subcontractors is tolerated in our company.

LEGAL SUPPORT: Dinco assists clients to secure necessary licenses and legal requirements to operate successfully in this country. Due to our good reputation and relationships with local authorities, we are able to handle legal procedures more easily (i.e. Investment Registration Certificate (including of EPE), Enterprise Registration Certificate, Environmental Impact Assessment Report, Firefighting& Prevention Certificate, Construction Permit of Class I, As-built Licenses...).

TIME & COST SAVING: Dinco adds value to the clients by providing innovative value engineering solutions which optimize time and costs thanks to our first class Design & Build team: Architects, Civil Engineers, ME Engineers... with high capability and thick experience, who are fluent in using BIM solution.

SATISFYING CLIENTS:

- Design with the wind resistance of 180km/h, or higher according to insurance requirements
- Construction of FM1 super flat floor (no more than 4.5mm of levelness difference for 3m length, less than 1.8mm for 0.6m length) to serve the use of robots later -> the Investor does not need to spend money on redoing the floor
- 10 Year Waterproofing warranty (for Design and Build projects by Dinco E&C)
- Warranty for entire project: 2 years / Technical maintenance (free for labor and small materials): 5 years

COMPANY PROFILE

WORLDWIDE NETWORK OF CLIENTS

Currently, more than 95% of Dinco E&C's Clients come from leading industrialized countries such as the US, Germany, Belgium, Japan, China, Korea, Singapore, etc. Therefore, we believe we can understand the cultures and have the ability to interact well with Clients.

MISSION STATEMENT

DINCO E&C partners with foreign investors in Vietnam, providing comprehensive solutions from design and construction to legal finalization. We help our Clients save time, optimize costs, and eliminate all risks.

Built on the foundation of honesty, ethics, and a heart-to-heart service mindset, we are committed to delivering superior quality backed by the policy of 10-year waterproof warranty and 5-year legislation warranty.

DINCO E&C does not just build constructions; we create distinctive value, elevate experiences, and deliver success beyond expectations to our Clients, guided by our motto: "Best Before Largest."

CORE VALUES

We are privately owned company and guided by firmly held values:

INTEGRITY AND HONESTY: Dinco's culture is based on integrity and honesty. We have set up the highest standards of ethical business performance which every employee is committed to follow. There is no compromise for any reason and under any circumstance. We are open and transparent in all dealings with Clients and Sub-contractors.

RESPONSIBILITY: We attach personal responsibility to all jobs, even the smallest, based on the principle of doing what is said, dealing with the consequences for being unable to do what has been said.

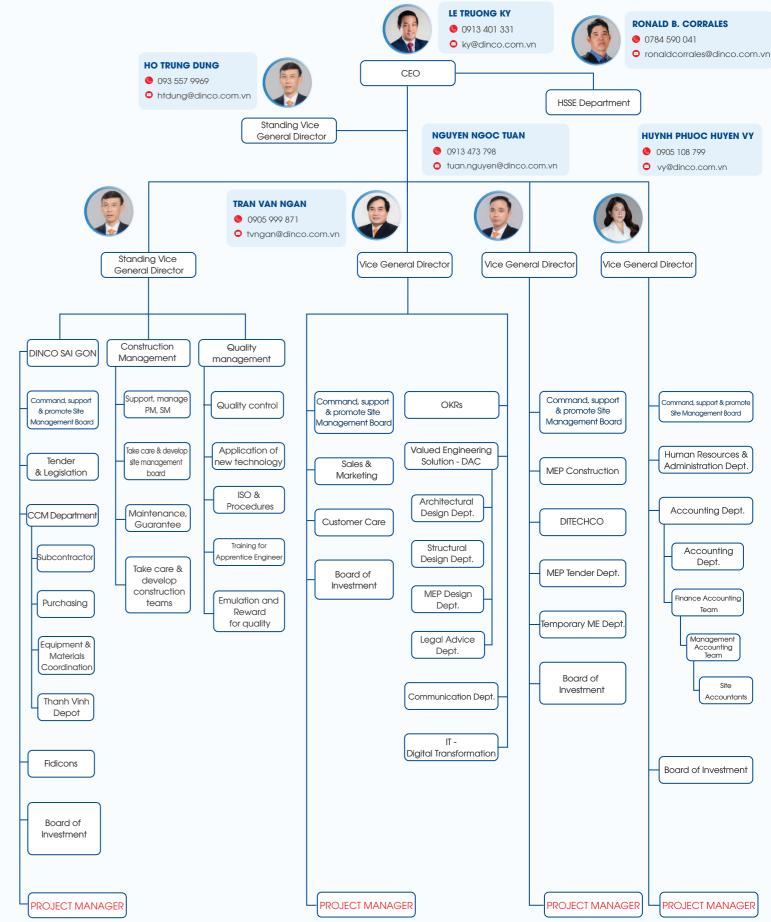

MUTUAL RESPECT: We work by our Dinco Rules, which encourage openness, debate and teamwork. We value a culture that includes a diversity of different backgrounds, experiences, and perspectives. We affirm that DINCO always respects the differences and ways of working of every Client and Subcontractor.

SAFETY: We believe every accident is preventable, and we continue our pursuit of zero accidents – people's lives depend on it.

SUSTAINABILITY: Based on the foundation of honesty and integrity, we plan and act for the long term good of our clients, environment and community.
